Where will your passion take YOU?

Come prepared to ask questions, like...
- Tell me how you chose this path?
- What are advantages and disadvantages of this career?
- What skills and qualities do people need to be successful in this career?
- What kind of person should pursue this career?
- How do you balance your life?
- How much free time do you have?
- What is job availability like in this career?
- What is some advice you can give someone interested in this career?
- What kind of post-secondary schooling did you have to do (if any)?
- What do you love/dislike most abour your career?
- How much control do you have over what you do?
- What do you wish you'd known about your career when you were still in high school?
