January 7, 2019

Attention Parents/Guardians,

**RE: Advanced Placement® Information Session**

In preparation for the upcoming course registration for the 2019/2020 school year, Moscrop will be hosting an AP Parent Information Evening. The purpose of this meeting is to give you an overview of what the AP Program is and how it can benefit your child. We offer AP courses in all five major academic areas including social studies, mathematics, languages, arts, and science.

Advanced Placement® courses are college-level courses offered in grades 11 & 12. They can give your child a taste of what college is like and can help him or her stand out on college applications. Not only that, but scoring well on the AP® Exam can get your child college credit, placement out of introductory courses or both, potentially saving thousands of dollars in tuition and fees.

We invite you and your child to attend our AP Night Information Session on **Thursday January 17, 2019 from 6:00-7:30pm (in the Multipurpose Room)** to learn about the AP program at Moscrop. We look forward to sharing information with you and helping you learn how AP can help your child achieve their college and career goals.

Looking forward to seeing you there!

Dan Adrian  
AP Coordinator
